

Pittsford Central School District

Code of Conduct

2018-19 School Year

Introduction

All members of the Pittsford school community have a collective responsibility to maintain a safe and orderly school environment. The Pittsford Code of Conduct shall govern the conduct of students, teachers and other school personnel, as well as visitors.

The goal of the Code of Conduct is to ensure all student's right to an education in a safe, civil and caring school environment. Responsible behavior by students, teachers, other district personnel, parents, and visitors is essential to achieving this goal. The District has expectations for conduct on school property and at school functions. These expectations are contained within the Code of Conduct and are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty, and integrity.

Schools within the District embrace social emotional learning principles and practices, creating social cultures which encourages positive behavior and interactions, while discouraging problematic behaviors among students. Developing a strong culture with high expectations, respect and co-accountability will lead to a safer environment where children can build positive relationships with each other and adults, as well as improve their social and academic functioning. The Code of Conduct ensures that schools are able to provide equal access to a wide range of supports and interventions that promote positive behaviors, and help students develop self-esteem, self-discipline and social and emotional efficacy such that they are better able to improve and correct inappropriate, unacceptable and/or harmful behaviors. As part of this effort, the Pittsford Central School District has begun to incorporate restorative practices as part of a continuum of accountable interventions associated with discipline. Restorative practices offer opportunities to address student misconduct and harm in a way that strengthens relationships and focuses on the harm done rather than only the rule(s) broken. These practices can be used with existing Code of Conduct procedures and consequences for inappropriate behavior, or upon agreement, in place of those procedures in selected situations. During the 2018-19 school year, the District will research restorative practices (and other means as available) that will provide continuous improvement of the Code of Conduct. We remain committed to clearly and concisely reinforcing the roles and responsibilities of students, staff and parents; setting forth expectations for student behavior, ensuring fair, appropriate and equitable student discipline practices and complying with all applicable laws and regulations.

Unless otherwise indicated, this Code of Conduct applies to all students, school personnel, parents, and other visitors when on school property or attending a school function. School property is defined as in or within any building, structure, athletic playing field, playground, parking lot or land contained within the real property boundary line of the District's elementary or secondary schools, or on a school bus; and a school function shall mean a school-sponsored event, activity, or athletic contest, whether on school property or not.

The Pittsford Code of Conduct has been developed in collaboration with students, teachers, administrator, and parent organizations, school safety personnel and other school personnel.

Building Procedures Involving Student Service Personnel, Administrators, Teachers, Parents and Students

All members of the school community are expected to identify potential and actual discipline problems as they occur in the school building, on or about school property, or at school functions. School personnel should either deal directly with the problem or refer it to an appropriate member of the staff, counselors and/or administrators. Students and parents are encouraged to communicate information about behavioral problems to an appropriate member of the staff. Students are expected to be cooperative and assist school personnel in the investigation and identification of discipline issues in violation of this Code of Conduct.

- a) An appropriate staff member will resolve the problem immediately by following District policy and building procedures.
- b) Referral cases which are not resolved immediately and are in need of further inquiry and/or information, shall be dealt with by an administrator, counselor or other staff member. This inquiry process may include information from students, staff members, parents, and

community resources. Resolution of the problem may involve group interaction: (e.g., by Pupil Service Team (PST), building administrative team, etc.)

- b) The person making the initial determination of such a violation may take immediate and appropriate action to abate the violations and, if authorized, may further administer appropriate disciplinary measures at the time such violation is determined. Such individual may defer a determination of the appropriate disciplinary measures for a reasonable period of time for further investigation and action by building administration.
- c) The respective Building Principals, or their designees, shall have responsibility for the review of the findings of the alleged violation of these policies and, insofar as authorized by law, shall have the authority to administer appropriate discipline for violations.
- d) Insofar as permitted by law, the Board does hereby delegate to the Superintendent its authority in the administration of these policies. The Superintendent shall be charged with the responsibility of maintaining order and discipline in the schools of the District, and further to carry out the policies of the Board so as to secure the best educational results and the maintenance of public order. In such capacity, the Superintendent shall hear and determine appeals from decisions of other District authorities as to violations of these policies and the disciplinary measures resulting there from, and shall have further authority to modify or impose other disciplinary measures as she shall deem appropriate.
- e) The Board shall hear and determine appeals from decisions of the Superintendent for suspensions that are over five (5) days in length.

Disciplinary Action

- a) Violation by Students - A student who has been found in violation of this policy shall be subject to such disciplinary action as set forth under the "Penalties" section as deemed appropriate under the circumstances. If the student is a student-athlete and the violation is also an infraction of the training rules, the student-athlete shall be subject to penalties under the Athletic Code of Conduct. Parents will be notified either orally or in writing, by the Principal or his/her designee, depending on the nature of the violation. It is the policy of the Board that disciplinary problems are handled promptly and appropriately by the District representatives most directly concerned, and that building principals and the Superintendent be involved only in more serious disciplinary problems.
- b) Violation by Staff Members - Faculty and staff members found in violation of the policies of the Board are subject to dismissal, suspension, termination or other disciplinary action. Disciplinary action involving faculty and staff members shall be consistent with the

Penalties and Use of Outside Agencies

Disciplinary measures shall be just and, insofar as possible, shall be suitable to the individual. Law enforcement authorities shall be summoned to school grounds as required by law or when deemed necessary by the building administrator.

 - g) Possession or use of tobacco (smoke or smokeless) may result in a three day suspension.
 - h) Possession or use of alcohol, e-cigarettes or other drug delivery devices, inhalable substances, illegal substances, synthetics, drug paraphernalia or the inappropriate use of prescription substances and/or over the counter substances or any substance used for other than its intended purpose, will result in a five day out-of-school suspension. A student who is suspended from school may not participate in any extracurricular activities on or off school grounds, including sporting events, field trips, intramurals, or other school sponsored activities.

Persons determining disciplinary measures are encouraged to use appropriate innovative remedial measures toward the end of obtaining mature personal growth and securing willing cooperation with the policies of the Board and the maintenance of order on District property. Insofar as specific procedures are mandatory prerequisites to the administration of disciplinary measures, those procedures shall be followed.

Discipline Procedures for Students with Disabilities

The District will comply with all state and federal laws regulating discipline procedures for students with disabilities.

The disciplinary procedures for students with disabilities have been developed to:

- a) Promote early intervention and avoid escalation of behavioral or other adjustment problems;
- b) Examine and respond to behavior as it relates to the disability; and
- c) Provide for modifications of instructional program, services and/or placement, in an expedited fashion to avoid disruption of the student's education.

It is intended that behavior which is related to the disability and does not present a serious danger to self or others, should be dealt with through modification of the instructional program, behavior support plan, services, or placement rather than the suspension process. This would include conferences among the teacher, Special Education Teacher, Administrator, and the parent to attempt to resolve the problem. It may result in a referral to the Committee on Special Education or modifications within the existing program which do not affect the Individualized Education Plan.

Where the behavior is not related to the disability and/or the behavior does present a serious danger to self or others, the short-term suspension process may still be used.

These procedures have been developed to avoid prolonged periods of time without any instructional program for students and/or to minimize the staff time involved in the long-term process. (Refer to administrative procedures concerning students with disabilities).

Alternative Educational Programs

Any or all alternative educational programs approved by the New York State Education Department will be considered as to their appropriateness based on the needs of a student. These will be considered on a case-by-case basis.

Rights of Appeal

Insofar as permitted by law, authority for the implementation of the Board policy on school conduct and discipline is delegated to the Superintendent. Any individual aggrieved by a finding of violation of this policy, and/or the disciplinary measures resulting there from, may appeal to the Superintendent.

Such appeals must be in writing and submitted to the Superintendent within thirty (30) days of the initial decision to be appealed. The Superintendent shall review and decide the appeal within thirty (30) school days following its submission. The appeal may be determined solely upon written papers or such further investigation as the Superintendent, in the Superintendent's sole and unrestrained discretion, shall deem pertinent to the questions presented on appeal.

The District shall ensure that all District staff members are familiar with the content of the Code of Conduct and their responsibility in its implementation and enforcement through annual staff and new teacher orientation meetings

The Code of Conduct will have been adopted by the Board only after at least one public hearing that provided for the participation of school personnel, parents/persons in parental relation, students, and any other interested parties. Copies of the Code of Conduct shall be disseminated pursuant to law and Commissioner's Regulations.

The Code of Conduct shall be reviewed on an annual basis, and updated as necessary in accordance with law. The Board shall reapprove any updated Code of Conduct or adopt revisions only after at least one (1) public hearing that provides for the participation of school personnel, parents/persons in parental relation, students, and any other interested parties.
