5110 - BUDGET PLANNING AND DEVELOPMENT

Budget planning and development for the District will be an integral part of program planning so that the annual operating budget may effectively express and implement programs and activities of the District. Budget planning will be a year-round process involving participation of District-level administrators, principals, directors, coordinators, teachers, and other personnel. The process of budget planning and development should allow for community input and contain numerous opportunities for public information and feedback. The Board will establish budget guidelines on an annual basis.

The Superintendent will have overall responsibility for budget preparation, including the construction of and adherence to a budget calendar. Program managers will develop and submit budget requests for their particular areas of responsibility after seeking the advice and suggestions of staff members.

Objectives

The objectives of this investment policy are four-fold:

- a) Investments shall be made in a manner so as to safeguard the funds of the District; and
- b) Bank deposits shall be made in a manner so as to safeguard the funds of the District.
- c) Investments shall be sufficiently liquid so as to allow funds to be available as needed to meet the obligations of the District.
- d) Funds shall be invested in such a way as to earn the maximum yield possible given the first three (3) investment objectives.

Authorization

The authority to deposit and invest funds is delegated to the Assistant Superintendent for Business or his/her designee. These functions shall be performed in accordance with the applicable sections of the General Municipal Law and the Local Finance Law of the State of New York.

The District may invest funds in the following eligible investments:

- a) Obligations of the State of New York.
- b) Obligations of the United States Government, or any obligations for which principal and interest are fully guaranteed by the United States Government.
- c) Time Deposit Accounts placed in a commercial bank authorized to do business in the State of New York, providing the account is collateralized as required by law. (Continued)

5220 - DISTRICT INVESTMENTS (Cont'd.)

5230 - ACCEPTANCE OF GIFTS, GRANTS AND BEQUESTS TO THE DISTRICT

The Board may accept gifts, grants and/or bequests of money, real or personal property, as well as other merchandise which, in view of the Board, add to the overall welfare of the District, provided that such acceptance is in accordance with existing laws and regulations. However, the Board is not required to accept any gift, grant or bequest and does so at its discretion, basing its judgment on the best interests of the District. Furthermore, the Board will not accept any gift, grant or bequest which constitutes a conflict of interest and/or gives an appearance of impropriety.

At the same time, the Board will safeguard the District, the staff and students from commercial exploitation, from special interest groups, and the like.

The Board will not accept any gifts or grants which will place encumbrances on future Boards, or result in unreasonable additional or hidden costs to the District.

The Board will not formally consider the acceptance of gifts or grants until and unless it receives the offer in writing from the donor/grantor. The Board authorizes the Superintendent the authority to accept gifts of cash or personal property on behalf of the Board of Education with a value not to exceed \$1,500 per donor per year. For gifts or donations in excess of \$1,500 the Superintendent will make recommendations to the Board for official action and resolution passed by Board majority. The Board would prefer the gift or grant to be a general offer rather than a specific one. Consequently, the Board would suggest that the donor/grantor work first with the school administrators in determining the nature of the gift or grant prior to formal consideration for acceptance by the Board. However, the Board, in its discretion, may direct the Superintendent to apply such gift or grant for the benefit of a specific school or school program.

The Board is prohibited, in accordance with the New York State Constitution, from making gifts/charitable contributions with District funds.

Gifts and/or grants of money to the District shall be annually accounted for under the trust and agency account in the bank designated by the Board. The superintendent shall semi-annually supply to the Board a summary of all gifts received by the District.

All gifts, grants and/or bequests shall become District property. A letter of appreciation, signed by the President of the Board, will be sent to a donor/grantor in recognition of his/her contribution to the District.

A student with a disability must be provided substitutions in food when that need is supported by a statement signed by a physician attesting to the need for the substitutions and recommending alternate foods.

However, the school food service is not required to provide meal services (for example, School Breakfast Program) to students with disabilities when the meal service is not normally available to the general student body, unless a meal service is required under the student's individualized education program (IEP) or Section 504 Accommodation Plan as mandated by a physician's written instructions.

Though not required, the District will also allow substitutions for non-disabled children who are unable to consume the regular meal because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority.

Special Services

District food services may provide meals or refreshments for special District events or meetings. Charges for these services shall be determined by the Director of Food Services and shall cover all costs associated with the event.

Kitchen facilities may be used by school or community groups when under the supervision of a member of the food services staff. A fee will be charged to cover the cost of supervision.

5672 - INFORMATION SECURITY BREACH AND NOTIFICATION

The School District values the protection of private information of individuals in accordance with applicable law and regulations. Further, the District is required to notify affected individuals when there has been or is reasonably believed to have been a compromise of the individual's *private information* in compliance with the Information Security Breach and Notification Act and Board policy.

a) "*Private information*" shall mean ****personal information** in combination with any one or more of the following data elements, when either the personal information or the data element is not encrypted or encrypted with an encryption key that has also been acquired:

1. Social security number;
2. Driver's license number or non-driver identification card number; or
3. Account number, credit or debit card number, in combination with any required security code, access code, or password which would permit access to an individual's financial account.

"*Private information*" does not include publicly available information that is lawfully made available to the general public from federal, state or local government records.

****"Personal information"** shall mean any information concerning a person which, because of name, number, symbol, mark or other identifier, can be used to identify that person.

b) "*Breach of the security of the system*" shall mean unauthorized acquisition or acquisition without valid authorization of computerized data which compromises the security, confidentiality, or integrity of personal information maintained by the District. Good faith acquisition of personal information by an employee or agent of the District for the purposes of the District is not a breach of the security of the system, provided that private information is not used or subject to unauthorized disclosure.

Determining if a Breach Has Occurred

In determining whether information has been acquired, or is reasonably believed to have been acquired, by an unauthorized person or person without valid authorization, the District may consider the following factors, among others:

- a) Indications that the information is in the physical possession and control of an unauthorized person, such as a lost or stolen computer or other device containing information; or

The disclosure to affected individuals shall be made in the most expedient time possible and without unreasonable delay, consistent with the legitimate needs of law enforcement, or any measures necessary to determine the scope of the breach and restore the reasonable integrity of the data system. The District shall consult with the State Office of Information Technology Services to determine the scope of the breach and restoration measures.
- b) For any computerized data maintained by the District that includes private information which the District does not own, the District shall notify the owner or licensee of the information of any breach of the security of the system immediately following discovery, if the private information was, or is reasonably believed to have been, acquired by a person without valid authorization.

The notification requirement may be delayed if a law enforcement agency determines that such notification impedes a criminal investigation. The required notification shall be made after the law enforcement agency determines that such notification does not compromise the investigation.

Methods of Notification

The required notice shall be directly provided to the affected persons by one of the following methods:

- a) Written notice;
- b) Electronic notice, provided that the person to whom notice is required has expressly consented to receiving the notice in electronic form; and a log of each such notification is kept by the District when notifying affected persons in electronic form. - c) Telephone notification, provided that a log of each such notification is kept by the District when notifying affected persons by phone; or

(Continued)

5672 - INFORMATION SECURITY BREACH AND NOTIFICATION (Cont'd.)

In the event that any New York State residents are to be notified, the District shall notify the New York State Attorney General (AG), the New York State Department of State, and the New York State Office of Information Technology Services as to the timing, content and distribution of the notices and approximate number of affected persons.

In the event that more than five thousand (5,000) New York State residents are to be notified at one time, the District shall also notify consumer reporting agencies, as defined pursuant to State Technology Law Section 208, as to the timing, content and distribution of the notices and approximate number of affected persons. Such notice shall be made without delaying notice to affected New York State residents. A list of consumer reporting agencies shall be compiled by the State Attorney General and furnished upon request to school districts required to make a notification in accordance with State Technology Law Section 208(2), regarding notification of breach of security of the system for any computerized data owned or licensed by the District that includes private information.

- i) Implement software based on client roles identified by the District to protect against loss of sensitive data;
- j) Deploy software or systems to identify and eradicate malicious software attacks;
- k) Develop a disaster recovery plan appropriate for the size and complexity of District IT operations to ensure continuous critical IT services in the event of any sudden, catastrophic event, including, but not limited to fire, computer virus or deliberate or inadvertent employee action.

Each school shall respond appropriately to ensure the safety and protection of the students and other occupants upon the receipt of any bomb threat in accordance with the procedures established in the Emergency Preparedness Guide.

(Continued)

5683 - DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)Police Notification and Investigation

5687 - POSSESSION AND USE OF PERSONAL CELL PHONES IN SCHOOLS

The Board recognizes that while carrying cell phones can be a safety measure for staff and students alike, problems arise when the inappropriate use of cell phones interferes with the school's ability to maintain control in the school environment, giving rise to security as well as educational concerns.

Inappropriate or unauthorized use of cell phones can undermine the communication system in place per the school safety plans, impede evacuation plans if parents or other individuals are summoned to the school by non-designated persons, and potentially restrict the access of community emergency service providers to the site.

As deemed necessary, school safety plans and the District Code of Conduct shall be modified to address the use of and/or restriction of cell phones during designated times or events, particularly by students and visitors to the schools.

**5688 - ELECTRONIC DEVICES W/ PHOTOGRAPHIC OR TEXT MESSAGING
CAPABILITY**

The use of electronic devices with photographic, audio, video and/or text messaging capability, including but not limited to, cell phones, cameras, personal data assistants and other devices, creates the potential for violations of privacy as well as threats to testing/examination security.

- a) During any test, examination, or in any situation with the potential for plagiarism or cheating;

Transportation to School Sponsored Events

Where the District has provided transportation to students enrolled in the District to a school sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the District unless the parent or legal guardian of a student participating in such event has provided the District with written notice (using Form 5730F), consistent with District policy, authorizing an alternative form of return transportation for such student or unless intervening circumstances make such transportation impractical. In cases where intervening circumstances make transportation of a student back to the point of departure or to the appropriate school in the District impractical, a representative of the District shall remain with the student until such student's parent or legal guardian has been contacted and informed of the intervening circumstances which make such transportation impractical; and the student has been delivered to his/her parent or legal guardian.

Emergency Transportation

In the event of an emergency situation, the Superintendent is authorized to make an exception to the transportation policy and provide transportation for those students who would otherwise not be eligible for transportation.

Transportation in Personal Vehicles

Personal cars of teachers and staff shall not be used to transport students except in the event of extenuating circumstances and authorized by the administration.

5740 - USE OF BUSES BY COMMUNITY GROUPS

Upon formal application to and approval by the Director of Transportation buses may be rented to a municipal corporation; to any senior citizen center recognized and funded by the Office for the Aging; to any not-for-profit organization serving those with disabilities; or, to any not-for-profit organization which provides recreational youth services or neighborhood recreation centers. Such rentals can be made only for times when vehicles are not needed for student transport.

5750 - SCHOOL BUS SAFETY PROGRAM

The safe transportation of students to and from school is of primary concern in the administration of the school bus program. All state laws and regulations pertaining to the safe use of school buses shall be observed by drivers, students and school personnel.

To assure the safety and security of students boarding or exiting school buses on school property, it shall be unlawful for a driver of a vehicle to pass a stopped school bus when the red bus signal is in operation.

The Director of Transportation, in cooperation with the Principals, has the responsibility of developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct. In order to ensure maximum safety to those riding school buses, it is necessary that students and drivers cooperate in this effort. There is no substitute for training to develop safe habits in pedestrian and vehicular traffic.

All buses and other vehicles owned and operated by the District will have frequent safety inspections, and will be serviced regularly. The Director of Transportation will maintain a comprehensive record of all maintenance performed on each vehicle.

All school bus accidents, regardless of damage or injuries involved, must be reported at once to the Director of Transportation.

NOTE: Refer also to Policy #5761 -- Drug and Alcohol Testing For School Bus Drivers and Other Safety-Sensitive Employees

5761 - DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES

In accordance with federal regulations, employees in safety-sensitive positions as defined in regulations, including school bus drivers who are required to have and use a commercial drivers license (CDL), are subject to random testing for alcohol, marijuana, cocaine, amphetamines, opiates (including heroin), and phencyclidine (PCP). The District shall adhere to federal law and regulations requiring the implementation of a drug and alcohol testing program for such employees in safety-sensitive positions.

The District shall either establish and manage its own program, by contract, or through a consortium for the provision of alcohol and drug testing of employees in safety-sensitive positions. Safety-sensitive employees (SSE), including school bus drivers who drive a vehicle which is designed to transport sixteen (16) or more passengers (including the driver), shall be subject to this requirement.

Federal regulations require that the District test school bus drivers and other SSEs for alcohol and drugs at the following times:

- a) Drug testing will be conducted after an offer to hire, but before actually performing safety-sensitive functions for the first time. Such pre-employment testing will also be required when employees transfer to a safety-sensitive position.
- b) Safety-sensitive employees are also subject to a random drug and/or alcohol test on an unannounced basis just before, during or just after performance of safety-sensitive functions.
- c) In addition, testing will be ordered if a trained supervisor has a "reasonable suspicion" that an employee has engaged in prohibited use of drugs and/or alcohol.
- d) There will also be post accident testing conducted on employees after accidents meeting the federally mandated drug and alcohol guidelines.
- e) Finally, return-to-duty and follow-up testing will be conducted if an individual who has violated the prohibited alcohol and/or drug conduct standards returns to performing safety-sensitive duties. Follow-up tests are unannounced and at least six (6) tests must be conducted in the first twelve (12) months after an employee returns to duty. Follow-up testing may be extended for up to sixty (60) months following return-to-duty.

All employee drug and alcohol testing will be kept confidential and shall only be revealed without the driver's consent to the employer, a substance abuse professional, drug testing laboratory, medical review officer and any other individual designated by law.

5761 - DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES (Cont'd.)

The following alcohol and controlled substance-related activities are prohibited by the Federal Highway Administration's drug use and alcohol misuse rules for drivers of commercial motor vehicles and other SSEs:

- a) Reporting for duty or remaining on duty to perform safety-sensitive functions while having an alcohol concentration of 0.04 or greater.
- b) Being on duty or operating a commercial motor vehicle (CMV) while the driver possesses alcohol, unless the alcohol is manifested and transported as part of a shipment. This includes the possession of medicines containing alcohol (prescription or over-the-counter), unless the packaging seal is unbroken.
- c) Using alcohol while performing safety-sensitive functions.
- d) Using alcohol four (4) hours or less before duty.
- e) When required to take a post-accident alcohol test, using alcohol within eight (8) hours following the accident or prior to undergoing a post-accident alcohol test, whichever comes first.
- f) Refusing to submit to an alcohol or controlled substance test required by post-accident, random, reasonable suspicion or follow-up testing requirements.
- g) Reporting for duty or remaining on duty, requiring the performance of safety-sensitive functions, when the SSE uses any controlled substance. This prohibition does not apply when instructed by a physician who has advised the SSE that the substance does not adversely affect the SSE's ability to safely operate a CMV.
- h) Reporting for duty, remaining on duty or performing a safety-sensitive function, if the SSE tests positive for controlled substances.

Drivers and other SSEs who are known to have engaged in prohibited behavior with regard to alcohol misuse or use of controlled substances are subject to disciplinary action and penalties pursuant to District policy and collective bargaining agreements, as well as the sanctions provided for in federal law. SSEs who have engaged in such prohibited behavior shall not be allowed to perform safety-sensitive functions until they are:

- a) Evaluated by a substance abuse professional (SAP).
- b) Complete any requirements for rehabilitation as set by the District and the SAP.

(Continued)

5761 - DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES (Cont'd.)

- c) Pass a return-to-duty test with the result below 0.02 if the conduct involved alcohol, or a controlled substance test with a verified negative result if the conduct involved controlled substance use.
- d) The SSE shall also be subject to unannounced follow-up alcohol and controlled substance testing. The number and frequency of such follow-up testing shall be as directed by the SAP, and consist of at least six (6) tests in the first twelve (12) months.

The Superintendent or his/her designee shall ensure that each SSE receives a copy of District policy, educational materials that explain the requirements of the alcohol and drug testing regulations, and any regulations and/or procedures developed by the District with respect to meeting those requirements. The Superintendent or his/her designee shall ensure that a copy of these materials is distributed to each SSE, who shall sign for receipt of all of the above documents, as well as other appropriate personnel, prior to the start of alcohol and controlled substance testing as well as at the beginning of each school year or at the time of hire for any safety-sensitive employees. Representatives of applicable collective bargaining units shall be notified of the availability of this information.

The Superintendent or his/her designee shall arrange for training of all supervisors who may be utilized to determine whether "reasonable suspicion" exists to test a driver for prohibited conduct involving alcohol or controlled substance use/abuse.

Any violation of this policy and/or District procedures, and applicable federal and state laws by a covered employee shall be grounds for disciplinary action including, but not limited to, fines, suspension, and/or discharge in a manner consistent with District policy, collective bargaining agreements and applicable law.

5770 - SCHOOL BUS IDLING

The Board recognizes the need to promote the health and safety of District students and staff and to protect the environment from harmful emissions found in bus exhaust, in particular diesel exhaust, by eliminating the unnecessary idling of all school buses on school property including all schools within the District or at any school or school related activities to which District students are transported. For purposes of this policy, an "idling school bus" shall mean a school bus that is parked or stopped at a school or other location and has its engine running. *This policy applies to the operation of every District-owned and/or contracted school bus.* The District shall strive to eliminate all unnecessary idling of school buses such that idling time is minimized in all aspects of school bus operation.

In accordance with the Rules and Regulations of the New York State Department of Environmental Conservation (DEC), excessive idling of certain vehicles is illegal in New York State. State regulations provide in part that buses exceeding 8,500 pounds and designed primarily for transporting persons or properties (i.e., a "heavy duty vehicle") shall not idle for more than five (5) consecutive minutes when not in motion unless otherwise authorized by the regulations. Significantly, the state regulations apply to a heavy duty vehicle whether or not powered by a diesel or non-diesel fueled engine.

Further, the five (5) consecutive minute limitation on idling applies to buses whether owned, operated or leased; or to one who owns, leases or occupies land and has the actual or apparent dominion or control over the operation of the bus present on such land.

Exceptions

Exceptions to the five (5) consecutive minute limitation on idling of school buses will be as enumerated in state regulations and include, but are not limited to, the following:

- a) The bus is forced to remain motionless because of the traffic conditions over which the driver has no control; and
- b) Idling to maintain an interior temperature of fifty (50) degrees Fahrenheit when the outside temperature is less than fifty (50) degrees or an interior temperature of seventy (70) degrees Fahrenheit when the temperature outside is more than eighty (80) degrees.
- c) Auxiliary function such as wheelchair lifts IF the operation requires the engine to continue running.
- d) When operation of the vehicle is required for maintenance, including necessary pre-trip safety inspections.

5770 - SCHOOL BUS IDLING (Cont'd.)**Publication of District Policy/Bus Driver Training**

This policy shall be posted at the Transportation Department and bus garage; and the Director of Transportation shall provide training to District bus drivers/transportation personnel on the District's idling reduction program and other practices for environmentally friendly bus operations to reduce school bus emissions and minimize exposure to bus exhaust. Appropriate signage shall be posted at each school to remind drivers and school staff of the policy.

Also, as may be applicable, the District shall ensure that each vendor/contract bus company receives a copy of the District policy regarding idling of school buses and shall provide any educational materials, regulations and/or procedures developed by the District with regard to meeting training requirements of the District's idling reduction program. The vendor/contract bus company shall sign for receipt of all of the above documents at the beginning of each school year and shall provide training for all currently employed bus drivers/transportation personnel. The vendor/contract bus company must also ensure that newly hired bus drivers, upon employment, are informed of the District policy and provided appropriate training regarding the idling of school buses.

The provisions of this policy shall be incorporated by reference in all transportation contracts and agreements.

The District shall otherwise publish its School Bus Idling Policy at its discretion which may include publication in the local newspaper and/or annual District calendar.

Sanctions for Violation of District Policy

District employed bus drivers as well as other District employees who are known to have engaged in prohibited behavior with regard to excessive idling of school buses are subject to disciplinary action pursuant to the applicable collective bargaining agreement, as well as the sanctions provided for in law and/or regulations.

Any significant violations by vendors/contract bus companies of District policy and/or regulations regarding excessive idling of school buses shall result in revocation of their contract for the transportation of District students; and they may be subject to sanctions provided for in law and/or regulations.

The District will monitor and enforce compliance with this policy; and any person may report incidents of noncompliance by contacting the Director of Transportation.
