

Mission Statement

The **Summer Enrichment Program** provides a variety of learning experiences for students in the areas of Academic & Life Skills and

Performance & Visual Arts. The program encourages students to develop a positive self-concept, continued interest in educational and artistic classes and working together for a common goal.

The **Summer Enrichment Institute** relies on the partnership of students, teachers, and parents to develop the potential of each student.

Program Goals

This program is designed to support students' enthusiasm, interests and creative expression in related learning and performing areas.

The **Summer Enrichment Program** will provide top quality programs taught by highly trained and experienced staff. The program goals are to instill positive values, foster positive self-esteem, help to develop life skills, build social competencies and promote a commitment to learning. We provide a safe and encouraging environment for students to try new things. We want to empower the students to believe in themselves and their ability.

The Summer Enrichment Institute is designed to inspire all participants towards creative thinking and developing skills necessary for our ever-changing world. As the directors of the Summer Enrichment Institute we want to assure you that we will be available to answer questions or assist you as needed.

Sincerely,

Tracy & Jay

We look forward to working with you this coming summer.

As always we will consult with you when necessary and feel free to contact us with questions at any time.
