### **Monthly Estimates of Credit Losses**

At the end of each month, management should the

probable amount of uncollectible accounts and adjust the Allowance for Doubtful Accounts to this new estimate.

Two Approaches to Estimating Credit Losses:

Balance Sheet Approach
 income Statement Approach

## Estimating Credit Losses — The Balance Sheet Approach

 Year-end Accounts Receivable is broken down into age classifications.

Each age grouping has a different likelihood of being uncollectible.

O Compute a separate allowance for each age grouping.

## Estimating Credit Losses — The Balance Sheet Approach

At December 31, the receivables for EastCo, Inc. were categorized as follows:

Schedule of Ad			
Days Past Due	ember 31, 200 Accounts Receivable Balance	Estimated	Estimated Uncollectible Amount
Current	\$ 45,000		
1 - 30	15,000		
31 - 60 🕦	5,000		
Over 60	2,000		
	\$ 67,000		

## Estimating Credit Losses — The Balance Sheet Approach

At December 31, the receivables for EastCo, Inc. were categorized as follows:

Schedule of Ac	EastCo, Inc. counts Recei ember 31, 20

		accounting records.
		It also provides information for reconciling entries.
	-	entries.

### Reconciling the Bank Statement

#### Normal Differences between Bank Records and Accounting Records

- **Deposits in transit**—Cash recorded by the depositor that reached the bank too late to be included in the bank statement for the current month
- Outstanding checks—issued and recorded by the company but not yet presented to the bank for payment
- Service charges—bank fee for handing small accounts
- NSF charges—"Non sufficient funds" result from bad checks; the maker of the check does not have sufficient funds in his or her account to cover the check
- Interest Revenue—some business accounts earn interest; this interest is credited to the depositor's account and reported in the bank statement.
- Miscellaneous bank charges & credits—fees for printing checks & maintaining the checking account.

### Preparing a Bank Reconciliation: Demo Problem

Prepare a July 31 bank reconciliation statement and the resulting journal entries for the Simmons Company. The July 31 bank statement indicated a cash balance of \$9,610, while the cash ledger account on that date shows a balance of \$7,430. Addition information is below:

- Outstanding checks totaled \$2,417.
- A \$500 check mailed to the bank for deposit had not reached the bank at the statement date.
- The bank returned a customer's NSF check for \$225 received as payment of an account receivable.
- The bank statement showed \$30 interest earned on the bank balance for the month of July.
- Check 781 for supplies cleared the bank for \$268 but was erroneously recorded in our books as \$240.
- A \$486 deposit by Acme Company was erroneously credited to our account by the bank.

### **Petty Cash Funds**

2.

Every business finds it convenient to have a small amount of cash on hand with which to make some <i>minor</i> A custodian handles the account, and it is periodically. Examples are: small purchases of office supplies, postage, doughnuts for meetings, small delivery charges.
To create a <b>petty cash fund</b> , a check is made payable to "Petty Cash" for an amount that would cover expenditures for a period of approximately two weeks. The cash is checked and the money is kept on hand in a petty cash box.
Journal Entry to establish a \$200 petty cash fund:
The custodian of the account makes all payments from this fund and prepares a petty cash voucher. At the end of the period (or when the fund runs low), a check is drawn payable to Petty Cash to replenish the fund for the expenditures made during the period. (Assume that \$50 is left at the end of the period)
Journal Transactions to replenish the fund:
Miscellaneous Expense       120         Office Supplies       20         Delivery Expense       10         Cash       150
Short-Term Investments
Companies with large amounts of liquid resources often hold most of these resources in the form of marketable securities rather than cash.
Marketable securities consist primarily of bond investments and capital stock investments that are readily Because of their liquidity, these investments are listed on the balance sheet immediately after cash as a current
<ul> <li>Mark-to-Market: A Principle of Asset Valuation</li> </ul>
In 1993, the FASB changed the ways companies account for short-term investments: they now appear in the balance sheet at their current market value as of the balance sheet date. (Reporting short-term investments at market value substantially enhances the usefulness of the

Ø

balance sheet in evaluating the solvency of a business)

### Accounting for Marketable Securities

There are four basic accountable events relating to investments in marketable securities:

- 1. Purchase of investment
- 2. Receipt of dividend revenue and interest revenue
- 3. Sales of securities owned
- 4. End-of-period mark-to-market adjustments

Recognition of Dividends received from stock On December 15, Foster Corporation receives a \$0.30 per share dividend on its 4,000 shares of Coca-Cola.
When an investment is sold, a <i>gain</i> or <i>loss</i> often results. A sales price <u>in excess</u> of cost produces a <b>gain</b> , whereas a sales price <u>below</u> cost results in <b>loss</b> .  On December 18, Foster Corporation sells 500 shares of its Coca-Cola
stock for \$46.04 per share, <i>less</i> a \$20 brokerage commission.
stock for \$46.04 per share, <i>less</i> a \$20 brokerage commission. <u>Sales Proceeds:</u> (500 × \$46.04) - \$20 = \$23,000 <u>Cost Basis:</u> 500 × \$44* = \$22,000  ** 43.98, original price + .02, commission
Sales Proceeds: (500 × \$46.04) - \$20 = \$23,000  Cost Basis: 500 × \$44* = \$22,000  * 43.98, original price + .02, commission  23,000
<u>Sales Proceeds:</u> (500 × \$46.04) - \$20 = \$23,000 <u>Cost Basis:</u> 500 × \$44* = \$22,000 * 43.98, original price + .02, commission  23,000

#### Mark-to-Market Adjustment

On December 31, Foster Corporation's remaining shares of Coca-Cola capital stock have a current market value of \$42,000. Prior to any adjustment, the company's Marketable Securities account has a balance of  $$44,000 (1,000 \times $44 \text{ per share})$ .

This is an unrealized loss on the investment. According to Mark-to-Market, the Marketable Securities account should be adjusted to show the current value.

The account used to record a loss or gain is called Unrealized Holding Loss (Gain) on Investment. Marketable Securities is debited if there is a gain or credited if there is a loss.

### \$ Financial Analysis: Accounts Receivable

Collecting accounts receivable on time is important; it spells the success or failure of a company's credit and collection policies. A past-due receivable is a candidate for write-off as a credit loss. The older the account becomes, the higher likelihood it will go bad.

To help judge how good a job a company is doing in granting credit and collecting its receivables, management computes the *ratio* of net sales to average receivables. This accounts receivable turnover rate tells businesses how many times the company's average receivables were converted into cash during the year. The ratio is computed by dividing annual \_\_\_\_\_\_\_ by average \_\_\_\_\_.

Ex: Financial statements of 3M show net sales of \$9.4 billion.

Receivables were \$1.6 billion at the beginning of year and \$1.4 billion at the end of the year.

### Accounts Receivable Turnover:

 $\frac{\text{Net Sales}}{\text{Average AR}} = \frac{}{( + )/2} = \text{times}$ 

Average Number of Days to Collect Accounts Receivable:

<u>Days in Year</u> = \_\_\_ = days

Management closely monitors these ratios in evaluating the company's policies for extending credit to customers and the effectiveness of its collection procedures.

#### **ACCOUNTING**

Aging Accounts Receivable & Account Write-Offs

**Public Image**, a firm specializing in marketing and publicity services, uses a balance sheet approach to estimate uncollectible accounts expense. At year –end an analysis of the account receivables produced the following classifications:

Not due yet	\$333,000
1-30 days past due	\$135,000
31-60 days past due	\$58,500
61-90 days past due	\$13,500
Over 90 days past due	\$22,500
TOTAL	\$562,000

On the basis of past experience, the company estimated the percentages probably uncollectible for the above five groups to be as follows:

Group 1-1%

Group 2-3%

Group 3—10%

Group 4-20%

Group 5-50%

The Allowance for Doubtful Accounts before the adjustment at December 31 showed a credit balance of \$8,100.

a. Compute the estimated amount of uncollectible accounts based on the above classification by age groups.

\$

- b. Record the adjusting entry needed to bring the Allowance for Doubtful Accounts to the proper amount in the general journal below.
- c. Assume that on Jan 10 of the following year, Public Image learns that an account receivable which had originated on October 2 in the amount of \$8,550 was worthless because of the bankruptcy of the customer, Cranston Manufacturing. Prepare the journal entry on March 12 to write off this account.

GENERAL JOURNAL				

#### **ACCOUNTING**

Aging Accounts Receivable & Account Write-Offs

**Image Works**, a firm specializing in marketing and publicity services, uses a balance sheet approach to estimate uncollectible accounts expense. At year—end an analysis of the account receivables produced the following classifications:

Not due yet	\$400,000
1-30 days past due	\$120,000
31-60 days past due	\$50,000
61-90 days past due	\$25,000
Over 90 days past due	\$12,000
TOTAL	\$607,000

On the basis of past experience, the company estimated the percentages probably uncollectible for the above five groups to be as follows:

Group 1-1%

Group 2-3%

Group 3-10%

Group 4-20%

Group 5-50%

The Allowance for Doubtful Accounts before the adjustment at December 31 showed a credit balance of \$9,500.

a.	Compute the estimated amount of uncollectible accounts based on the above classification by
	age groups.

\$

- b. Record the adjusting entry needed to bring the Allowance for Doubtful Accounts to the proper amount in the general journal below.

### Bank Reconciliation Problem: ACCOUNTING

The cash transactions and cash balances of Gray, Inc., for July were as follows:

- 1. The ledger account for Cash showed a balance at July 31 of \$125,568.
- 2. The July bank statement showed a closing balance of \$114,828.
- 3. The cash received on July 31 amounted to \$16,000. It was left at the bank in the night depository chute after banking hours on July 31 and therefore was not received by the bank on the July statement.
- 4. Also included with the July bank statement was a debit memorandum from the bank for \$50 representing service charge for July.
- 5. A credit memorandum enclosed with the July bank statement indicated that anon-interest-bearing note receivable for \$4,000 from Rene Manes, left with the bank for collection, had been collected and the proceeds credited to the account of Gray, Inc.
- 6. Comparison of the paid checks returned by the bank with the entries in the accounting records revealed that check no. 821 for \$519, issued July 15 in payment for office equipment, had been erroneously entered in Gray's records as \$915.
- 7. Examination of the paid checks also revealed that three checks, all issued in July, had not yet been paid by the bank: no. 811 for \$314; no. 814 for \$625; no. 823 for \$175.
- 8. Included with the July bank statement was a \$200 check drawn by Howard Williams, a customer of Gray, Inc. This check was marked "NSF." It had been included in the deposit of July 27 but has been charged back against the company's account on July 31.

#### Directions:

- A. Prepare a bank reconciliation for Gray, Inc., at July 31
- B. Prepare journal entries to adjust the accounts at July 31. Assume that the accounts have not been closed.

Doomsday ratio
Objective 8

The financial statements for **Home Depot** are presented in Appendix E at the end of the text.

- a. Compute the doomsday ratio for Home Depot for 2003 and 2002.
- b. What conclusions can be drawn from comparing the ratios for 2003 and 2002?

## roblems Series A

PROBLEM 7-1A
Evaluate internal control of

Objectives 1, 2, 3

The following procedures were recently installed by The Geodesic Company:

- a. All sales are rung up on the cash register, and a receipt is given to the customer. All sales are recorded on a record locked inside the cash register.
- b. Vouchers and all supporting documents are perforated with a PAID designation after being paid by the treasurer.
- c. Checks received through the mail are given daily to the accounts receivable clerk for recording collections on account and for depositing in the bank.
- d. At the end of a shift, each cashier counts the cash in his or her cash register, unlocks the cash register record, and compares the amount of cash with the amount on the record to determine cash shortages and overages.
- e. Each cashier is assigned a separate cash register drawer to which no other cashier has access.
- f. The bank reconciliation is prepared by the accountant.
- g. Disbursements are made from the petty cash fund only after a petty cash receipt has been completed and signed by the payee.

#### Instructions

Indicate whether each of the procedures of internal control over cash represents (1) a strength or (2) a weakness. For each weakness, indicate why it exists.

The Orchid Company completed the following selected transactions during June 2006.

June 1. Established a petty cash fund of \$600.

- 6. The cash sales for the day, according to the cash register records, totaled \$7,998.50. The actual cash received from cash sales was \$8,008.15.
- 30. Petty cash on hand was \$50.75. Replenished the petty cash fund for the following disbursements, each evidenced by a petty cash receipt:

  June 3. Store supplies, \$30.75.
  - 8. Express charges on merchandise purchased, \$100.75 (Merchandise Inventory).
  - 12. Office supplies, \$74.30.
  - 15. Office supplies, \$35.20.
  - 19. Postage stamps, \$52.00 (Office Supplies).
  - 20. Repair to fax, \$110.00 (Miscellaneous Administrative Expense).
  - 21. Repair to printer, \$51.50 (Miscellaneous Administrative Expense).
  - 22. Postage due on special delivery letter, \$18.00 (Miscellaneous Administrative Expense).
  - Express charges on merchandise purchased, \$65.50 (Merchandise Inventory).
- 30. The cash sales for the day, according to the cash register records, totaled \$9,009.50. The actual cash received from cash sales was \$8,988.35.
- 30. Decreased the petty cash fund by \$150.

Bank reconciliation and entries

Objective 5

√1. Adjusted balance: \$14,244.09 The cash account for Showtime Systems at February 28, 2006, indicated a balance of \$19,144.15. The bank statement indicated a balance of \$31,391.40 on February 28, 2006. Comparing the bank statement and the accompanying canceled checks and memorandums with the records reveals the following reconciling items:

- a. Checks outstanding totaled \$11,021.50.
- b. A deposit of \$6,215.50, representing receipts of February 28, had been made too late to appear on the bank statement.
- c. The bank had collected \$6,300 on a note left for collection. The face of the note was \$6,000.
- d. A check for \$1,275 returned with the statement had been incorrectly recorded by Showtime Systems as \$2,175. The check was for the payment of an obligation to Wilson Co. for the purchase of office supplies on account.
- e. A check drawn for \$855 had been incorrectly charged by the bank as \$585.
- f. Bank service charges for February amounted to \$28.75.

#### Instructions

- 1. Prepare a bank reconciliation.
- 2. Journalize the necessary entries. The accounts have not been closed.

The cash account for Alpine Sports Co. on April 1, 2006, indicated a balance of \$16,911.95. During April, the total cash deposited was \$65,500.40, and checks written totaled \$68,127.47. The bank statement indicated a balance of \$18,880.45 on April 30, 2006. Comparing the bank statement, the canceled checks, and the accompanying memorandums with the records revealed the following reconciling items:

- a. Checks outstanding totaled \$5,180.27.
- b. A deposit of \$3,481.70, representing receipts of April 30, had been made too late to appear on the bank statement.
- c. A check for \$620 had been incorrectly charged by the bank as \$260.
- d. A check for \$479.30 returned with the statement had been recorded by Alpine Sports Co. as \$497.30. The check was for the payment of an obligation to Bray & Son on account.
- e. The bank had collected for Alpine Sports Co. \$3,424 on a note left for collection. The face of the note was \$3,200.
- f. Bank service charges for April amounted to \$25.
- g. A check for \$880 from Shuler Co. was returned by the bank because of insufficient funds.

#### Instructions

- 1. Prepare a bank reconciliation as of April 30.
- 2. Journalize the necessary entries. The accounts have not been closed.

Rocky Mountain Interiors deposits all cash receipts each Wednesday and Priday in a night depository, after banking hours. The data required to reconcile the bank statement as of May 31 have been taken from various documents and records and are reproduced as follows. The sources of the data are printed in capital letters. All checks were written for payments on account.

BANK RECONCILIATION FOR PRECEDING MONTH (DATED APRIL 30):		
Cash balance according to bank statement  Add deposit of April 30, not recorded by bank		\$10,422.80
The disposite of April 50, not recorded by bank		780.80
Deduct outstanding checks:		\$11,203.60

Adjusted balance		\$10,578.00

Mar. 31. Petty cash on hand was \$20.18. Replenished the petty cash fund for the following disbursements, each evidenced by a petty cash receipt:

Mar. 3. Store supplies, \$198.10.

- 6. Express charges on merchandise sold, \$120 (Transportation Out)
- 9. Office supplies, \$13.75.
- 18. Office supplies, \$49.30.
- 20. Postage stamps, \$74 (Office Supplies).
- 21. Repair to office printer, \$150.00 (Miscellaneous Administrative Expense).
- 22. Postage due on special delivery letter, \$40.00 (Miscellaneous Administrative Expense).
- 24. Express charges on merchandise sold, \$125 (Transportation Out)
- 27. Office supplies, \$41.15.
- 31. The cash sales for the day, according to the cash register records, totaler \$9,055.50. The actual cash received from cash sales was \$9,010.25.
- 31. Increased the petty cash fund by \$100.

#### Instructions

Journalize the transactions.

The cash account for Pickron Co. at April 30, 2006, indicated a balance of \$13,290.95. The bank statement indicated a balance of \$18,016.30 on April 30, 2006. Comparing the bank statement and the accompanying canceled checks and memorandum with the records revealed the following reconciling items:

- a. Checks outstanding totaled \$7,169.75.
- b. A deposit of \$5,189.40, representing receipts of April 30, had been made too late to appear on the bank statement.
- c. The bank had collected \$3,240 on a note left for collection. The face of the note was \$3,000.
- d. A check for \$1,960 returned with the statement had been incorrectly recorded by Pickron Co. as \$1,690. The check was for the payment of an obligation to Jones Co. for the purchase of office equipment on account.
- e. A check drawn for \$1,680 had been erroneously charged by the bank as \$1,860.
- f. Bank service charges for April amounted to \$45.00.

#### Instructions

- 1. Prepare a bank reconciliation.
- 2. Journalize the necessary entries. The accounts have not been closed.

The cash account for Seal-Tek Co. at December 1, 2006, indicated a balance of \$3,945.90. During December, the total cash deposited was \$31,077.75, and checks written totaled \$30,395.78. The bank statement indicated a balance of \$5,465.50 on December 31. Comparing the bank statement, the canceled checks, and the accompanying memorandums with the records revealed the following reconciling items:

- a. Checks outstanding totaled \$3,003.84.
- b. A deposit of \$2,148.21, representing receipts of December 31, had been made too late to appear on the bank statement.
- c. The bank had collected for Seal-Tek Co. \$1,908 on a note left for collection. The face of the note was \$1,800.
- d. A check for \$120 returned with the statement had been incorrectly charged by the bank as \$1,200.
- e. A check for \$318 returned with the statement had been recorded by Seal-Tek Co. as \$138. The check was for the payment of an obligation to Kenyon Co. or account.
- f. Bank service charges for December amounted to \$30.
- g. A check for \$636 from Fontana Co. was returned by the bank because of insufficient funds.

		******************************	

St. Jude Medical, Inc., is a publicly owned corporation engaged in the manufacture of heart of July and other medical products. In recent years, the company has accumulated large amounts

th and cash equivalents as a result of profitable operations. A recent annual report showed and cash equivalents amounting to more than 50% of the company's total assets. During the period that these large holdings of cash and cash equivalents have accumulated, the company has paid no cash dividends.

Some financial analysts thought St. Jude was holding too much cash.

- a. Why would anyone think that a company was holding "too much cash"?
- b. What can a corporation do to efficiently utilize cash balances in excess of the amounts needed
- c. Evaluate St. Jude's policies of accumulating liquid resources instead of paying dividends from the perspectives of:
  - 1. The company's creditors.
  - 2. The company's stockholders.

Explain how each of the following items is reported in a complete set of financial statements, including the accompanying notes. (In one or more cases, the item may not appear in the financial statements.) The answer to the first item is provided below as an example.

- b. Cash in a special fund being accumulated for the purpose of retiring a specific long-term liability.
- d. The amount by which the current market value of securities classified as available for sale exceeds their cost.
- e. The allowance for doubtful accounts receivable.
- f. The accounts receivable turnover rate.
- Realized gains and losses on investments sold during the period.

roceeds from converting cash equivalents into cash.

1. Proceeds from converting investments in marketable securities into cash.

Example: a. Cash equivalents normally are not shown separately in financial statements. Rather, they are combined with other types of cash and reported under the caption "Cash and Cash Equivalents." A note to the statements often shows the "breakdown" of this asset category.

The cash transactions and cash balances of Norfleet Farm for July were as follows:

- 1. The ledger account for Cash showed a balance at July 31 of \$16,766.95.
- 2. The July bank statement showed a closing balance of \$18,928.12.
- 3. The cash received on July 31 amounted to \$4,017.15. It was left at the bank in the night depository chute after banking hours on July 31 and therefore was not recorded by the bank on
- 4. Also included with the July bank statement was a debit memorandum from the bank for \$7.65
- 5. A credit memorandum enclosed with the July bank statement indicated that a non-interestbearing note receivable for \$4,545 from Rene Manes, left with the bank for collection, had been collected and the proceeds credited to the account of Norfleet Farm.
- 6. Comparison of the paid checks returned by the bank with the entries in the accounting records revealed that check no. 821 for \$835.02, issued July 15 in payment for office equipment, had been erroneously entered in Norfleet's records as \$853.02.
- 7. Examination of the paid checks also revealed that three checks, all issued in July, had not yet been paid by the bank: no. 811 for \$861.12; no. 814 for \$640.80; no. 823 for \$301.05.
- 8. Included with the July bank statement was a \$180 check drawn by Howard Williams, a customer of Norfleet Farm. This check was marked "NSF." It had been included in the deposit of July 27 but had been charged back against the company's account on July 31.

Ch 7 Review

# Problem Set B

LO1 PROBLEM 7.1B

Bank Reconciliation

L08

The cash transactions and cash balances of Dodge, Inc., for November were as follows:

- 1. The ledger account for Cash showed a balance at November 30 of \$6,750.
- 2. The November bank statement showed a closing balance of \$4,710.
- 3. The cash received on November 30 amounted to \$3,850. It was left at the bank in the night depository chute after banking hours on November 30 and therefore was not recorded by the bank on the November statement.
- 4. Also included with the November bank statement was a debit memorandum from the bank for \$15 representing service charges for November.
- 5. A credit memorandum enclosed with the November bank statement indicated that a non-interest-bearing note receivable for \$4,000 from Wright Sisters, left with the bank for collection, had been collected and the proceeds credited to the account of Dodge, Inc.
- 6. Comparison of the paid checks returned by the bank with the entries in the accounting records revealed that check no. 810 for \$430, issued November 15 in payment for computer equipment, had been erroneously entered in Dodge's records as \$340.
- 7. Examination of the paid checks also revealed that three checks, all issued in November, had not yet been paid by the bank: no. 814 for \$115; no. 816 for \$170; no. 830 for \$530.
- 8. Included with the November bank statement was a \$2,900 check drawn by Steve Dial, a customer of Dodge, Inc. This check was marked "NSF." It had been included in the deposit of November 27 but had been charged back against the company's account on November 30.

### Instructions

- a. Prepare a bank reconciliation for Dodge, Inc., at November 30.
- b. Prepare journal entries (in general journal form) to adjust the accounts at November 30. Assume that the accounts have not been closed.
- c. State the amount of cash that should be included in the balance sheet at November 30.

102 PROBLEM 7.2B

Protecting Cash

L03

Jason Chain Saws, Inc., had poor internal control over its cash transactions. Facts about the company's cash position at April 30 are described below.

The accounting records showed a cash balance of \$20,325, which included a deposit in transit of \$5,000. The balance indicated in the bank statement was \$14,300. Included in the bank statement were the following debit and credit memoranda:

### **Debit Memoranda:**

Check from customer, deposited but charged back as NSF	\$	125		
Bank service charges for April		50		
Credit Memorandum:				
Proceeds from collection of a note receivable on company's behalf				

Outstanding checks as of April 30 were as follows:

Check No.	Amount
836	\$ 500
842	
855	330
859

Graded Problem	

Quiz: Using the General Journal provided, record the following transactions.

- a) On January 2 First Period Associates estimates uncollectible accounts expense at 2% of net credit sales. Net credit sales for the fiscal period were \$3,700,000.
- b) On March 15 a \$1,625 accounts receivable, Luke's Law Enforcers is written off.
- c) On April 10, an accounts receivable that was previously written off, Tony and Things, for \$405 is unexpectedly collected.
- d) On December 31 the balance in the Allowance for Doubtful Accounts is \$2,955. The required balance is \$4,800. Make the adjusting entry.

REVIEW Accounting for Marketable Securities - Ch. 7

At December 31, Adam Manufacturing owned the following investments in the capital stock of publicly owned companies:

Katie's Cakes

2,000 shares: cost \$18 per share; Market value \$23 per share

Amanda's Alpaca's 4,000 shares: cost \$40 per share; Market value \$36 per share

In 2010, Adam Manufacturing engaged in the following transactions. Journalize the transactions in the general journal provided.

- \$ Purchased 2,000 shares of Miranda Stock at a cost of \$16 per share, plus a brokerage fee of \$250.
- \$ Sold 1,000 shares of Katie's Cakes for \$23 a share, less a brokerage commission of \$150.
- \$ Amanda's Alpaca's issued a \$ .15 dividend per share
- \$ Sold 500 shares of Amanda's Alpaca's for \$37a share, less a brokerage commission of \$300.
- \$ Prior to making any adjusting entries, Adam Marketable Securities account had a balance of \$172,000. If the current market value is \$177,500, make the adjusting entry required at year end.
