Sample Quantitative Analysis Question 1

A.P. Comparative

Country	Current Leader	Concurrent Years in Office as of 2020	Eligible to Serve Until	Number of Other Individuals Who Have Held Position Since 2010
United Kingdom	Boris Johnson	<1 year	No Limit	2
Russia	Vladimir Putin	8	2036*	1
China	Xi Jinping	8	No Limit	1
Iran	Ali Khamenei	31	No Limit	0
Nigeria	Muhammad Buhari	6	2023	2
Mexico	Andres Manuel Lopez Obrador	2	2024	2

the Russian State Duma passed a law in March 2020 voiding concurrent term limits for the current president when they would have otherwise expired in 2024

(A)Explain how the data in the chart relates to term limits in Russia.

(B)Using the data in the chart, draw a conclusion about authoritarian regimes and the tenure(length) of time that by executive leaders hold their office.

(C)Explain how the data in the chart above is reflective of pluralism in two of the listed countries.

Question Answering Advice:
- As this is an FRQ, not an essay, you should answer in prose(sentences) but you do not need a formal structure as if it were an essay.
- Answer the questions(A,B,C) in the order in which they are asked in your response.
- The task "Explain" means the following:
  - -describe clearly
  - -make intelligible
  - -give reasons for a concept or idea
  - -walk the reader through your reasoning(but write in 3rd person!)
