II. Health Care Provider Permission for Independent Use and Carry

I attest that this student has demonstrated to me that they can self-administer the medication(s) listed below safely and effectively, and may carry and use this medication (with a delivery device if needed) independently at any school/school sponsored activity. Staff intervention/support is needed only during an emergency. This order applies to the medications checked below:

This student is diagnosed with: __________________________

☐ Allergy and requires Epinephrine Auto-injector

☐ Asthma or respiratory condition and requires Inhaled Respiratory Rescue Medication

☐ Diabetes and requires Insulin/Glucagon/Diabetes Supplies

☐ __________________________ which requires rapid administration of __________________________

(State Diagnosis) (Medication)

Physician’s Signature: __________________________ Date: __________

III. A student may self-carry if:

1. The student is in grades 6-12. An exception to this rule is when the medication Lactaid, which younger students could carry.

2. The medication is not: a controlled substance, psychotropic, for ADHD, or contains dextromethorphan (DMX) or stimulant decongestants.

3. An assessment by the school nurse confirms that the student is self-directed to carry and self-administer her/his medication properly.

4. Parent assumes responsibility for insuring that his/ her child is carrying and taking the medication as ordered.

I give permission for this student to self-carry and self-administer the above medication as I consider her/him responsible. He/She has been instructed in and understands the purpose and appropriate method and frequency of administration of this medication.
