Current Text Used:
Title: Concepts and Challenges Life Science
Edition: 
Publishers: Globe Fearon (Pearson Learning Group)
Copyright Date: 2002
Year Adopted by PCSD: 2002

Rationale for seeking a new text: (State the weaknesses of the current text and strengths of the new text.)
The new text does not match the concepts that we teach nor the new focus of Next Generation Science Standards.

The four top goals identified by the Selection Committee that are met by this text:

1. Have materials that are up to date to implement current NYSSLs and NGSS Standards
2. Variety of resources for instruction in the classroom/Model lessons in the 5E format
3. Flexible to meet the needs of an integrated MS Curriculum/same text can be used in grades 6-8

4. Ease of use and appeal for students to access information

Please describe the extent to which this text is better aligned to the most current standards and expectations for this course than the text currently in use as well as other texts considered as part of the selection process.

The current text was created long before NGSS. It contains information on topics, but does not align with presentation techniques. It also has information that is out of date due to how science has evolved in the last 20 years. It focuses on details for broad teaching but doesn't take students to the deeper understanding of 3 dimensional science instruction. The Discovery Techbook has been developed completely around current teaching approaches referencing 3 dimensional instruction and 5E lesson planning. The digital license for this text will include MS 6-8 Science as well as ES Science.

Please describe the online resources that accompany the text, if applicable.

Discovery Education is a huge online video company. There are huge amounts of video. The textbook itself is an online techbook that students can read and interact with, and save changes in their own account. Students can submit assignments through the platform. There are interactive simulations and exploration in addition to text, videos, assessment practice and lesson plans.

What training, if any, for students or staff will be needed in order to fully utilize the text and/or online supports?

Training is available online in real time with employees of Discovery for teachers. Support is available online.

List any auxiliary materials you plan to purchase along with the text. (Teacher’s manual, multi media aids, tests for duplication, books, etc.) Indicate the expense involved for each and specify whether that expense is a one-time expense or annual.

Has this text been carefully reviewed and found not to discriminate or stereotype with regard to age, national or ethnic origin, race, sex, religion, color or marital status?

SUBJECT: ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY

Age of Attendance/Compulsory School Attendance Age

All persons residing within the District who are between the ages of five years and 21 years and who have not received a high school diploma are entitled to enroll in the District.

Kindergarten

Students who are legal residents of the District and who reside with a parent or guardian within the District at the time of the opening day of school must be five (5) years of age or more on December 1 in order to register for kindergarten.

A child who transfers into the District at any time during the school year may be considered for admission to kindergarten provided:

a) The parents were not legal residents of the District on the opening day of school, and
b) The child has been registered and enrolled in kindergarten in the District in which his/her parents were legal residents.

c) The building principal has made a determination of eligibility based on the results of screening.

Grades 1-12

A student who becomes six years of age on or before the first of December in any school year will be required to attend full-time instruction from the first day that the District schools are in session in September of that school year. A student who becomes six years of age after the first of December in any school year will be required to attend full-time instruction from the first day of session in the following September. Each student will be required to remain in attendance until the last day of session in the school year in which the student becomes 16 years of age.

Evidence of a prospective student's age and residency must be presented in the form as is permitted by state and federal law and regulation.
Determination of Student Residency

Residence is established by a child's physical presence as an inhabitant within the District and their intent to reside in the District.

A child's residence is presumed to be that of their parents or legal guardians. Where a child's parents live apart, the child can have only one legal residence. In cases where parents have joint custody, the child's time is essentially divided between two households, and both parents assume responsibility for the child, the decision regarding the child's residency lies ultimately with the family. Where parents claim joint custody, but do not produce proof of the child's time being divided between both households, residency will be determined on the basis of the child's physical presence and intent to remain within the District.

The presumption that a child resides with parents or legal guardians may be rebutted upon demonstration that custody of the child has been totally and permanently transferred to another individual. The District will not acknowledge living arrangements with persons other than a child's parents or legal guardians which are made for the sole purpose of taking advantage of the District's schools. The presumption that a child resides with parents or legal guardians may also be rebutted upon demonstration that the child is an emancipated minor. To establish emancipation, a minor may submit documentation of their means of support, proof of residency, and an explanation of the circumstances surrounding the student's emancipation, including a description of the student's relationship with parents or persons in parental relationship.

The Director of Student Services shall determine entitlement to attend a District school. In the case of an adverse decision, written notice to the parent, legal guardian or person in a parental relationship will include procedures to appeal the decision to the Commissioner of Education.

Undocumented Children

Undocumented children are entitled to attend the District's schools, provided they meet the age and residency requirements established by state law. Consequently, the District will not request on any enrollment or registration form, in any meeting, or in any other form of communication, any documentation or information regarding or tending to reveal the immigration status of a child, a child's parent(s), or the person(s) in parental relation. In the event the District is required to collect certain data, it will do so after the child has been enrolled or registered; in no instance will the information be required as a condition of enrollment or continued attendance.
Children of Activated Reserve Military Personnel

Students temporarily residing outside the boundaries of the District, due to relocation necessitated by the call to active military duty of the student's parent or person in parental relation, will be allowed to attend the public school that they attended prior to the relocation. The District is not required to provide transportation between a temporary residence located outside the District and the school the child attends.

Attendance Areas

The District attendance areas shall be established by the Board upon recommendation of the Superintendent. The Board shall determine any exceptions at the time of redistricting. Attendance areas shall be designated to make the most appropriate use of the space and facilities of the District in accordance with the District’s educational policies and programs. Recommendations for changes in attendance areas shall be made early in the school year proceeding the proposed change. Changes shall take effect at the beginning of the school year.
